

CONSTRUCTION NOTICE

SAN RAMON VALLEY BLVD

SLURRY SEAL AND ROADWAY STRIPING

Dear Property Owner and Business Owner,

This is a courtesy notice to update you on the status of the San Ramon Valley Boulevard improvements. The City and Lennar are planning the final slurry seal and roadway striping improvements. This work will be conducted between August 13 and September 3, 2021. Please note that during this construction time period, there will be periods of no parking allowed on San Ramon Valley Boulevard. No parking signs/barricades will be placed in advance within the no parking areas. Vehicles parked within the no parking areas may be ticketed and/or towed.

Traffic control along San Ramon Valley Boulevard is required during construction for safe access to the work areas and may include a full lane closure. During the course of construction, access to your business/property will always be available even if designated center turn lanes in San Ramon Valley Boulevard are limited. All work will be observed by the City of San Ramon Public Works Department.

When completed this project will help minimize disruption of through traffic, improve the safety of the pedestrian crosswalks, and provide left turn enhancements onto Faria Preserve Parkway and Deerwood Road.
